THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Platz on 13 October 2008. See the Interview Summary action dated 13 October 2008.

The application has been amended as follows: at line 2 of claim 11, change "the computer-readable medium" to --the computer-readable storage medium--.

2. The following is an examiner's statement of reasons for allowance:

As described in part in Applicant's remarks filed 30 June 2008, the claimed invention describes a novel operating system (OS). The OS contains typical OS features such as a shell and kernel, but also recites novel features such as an integrated database and an object-oriented (OO) interface exposed to the shell. These features are two of the main advances made by Microsoft (assignee of the instant application) in its modern operating systems. The OS-integrated database is a key feature of the WinFS file system and the OO shell is an important advancement of the product known as Monad (also known as Windows PowerShell). Today, these features

Art Unit: 2165

are known to ordinary practitioners of the art of computer programming, but at the time of filing they were neither disclosed to the public nor were similar technologies described in the prior art.

The Examiner agrees with Applicant's assertion that the prior art does not teach "whether the SQL database system is a component of the operating system that is used by the operating system to store information." Although databases are well-known in the art and these databases are executed by the OS and accessible through a shell, the prior art of record does not teach databases integrated into an OO OS as described throughout the instant specification and illustrated in element 316 of Figure 3. Support for this feature is found in the claims at the limitations "wherein the operating system includes a database management program" and "exposing the Items [in the database] to the shell of the operating system". The term "includes" is read to mean that the database management program is contained in the OS and is not a separate program that can be installed by a user without modifying the underlying OS. Similarly, all recitations of "by an operating system" or variations thereof are interpreted to mean that the OS is performing the steps directly and is not merely facilitating the execution of a user-level program. "[E]xposing the Items to the shell" is read to mean that arbitrary objects may be referenced through the shell and manipulated using well-known OO-style statements (e.g. paragraph [0579] of the instant specification).

Finally, it is noted that a prior art search was carried out for similar features in the well-known Linux OS using the Google search engine. There is nothing found in the

Art Unit: 2165

prior art search that indicates the combination of features in the claimed invention were in use in Linux or any other well-known OS at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
